

PONTIAC 1986

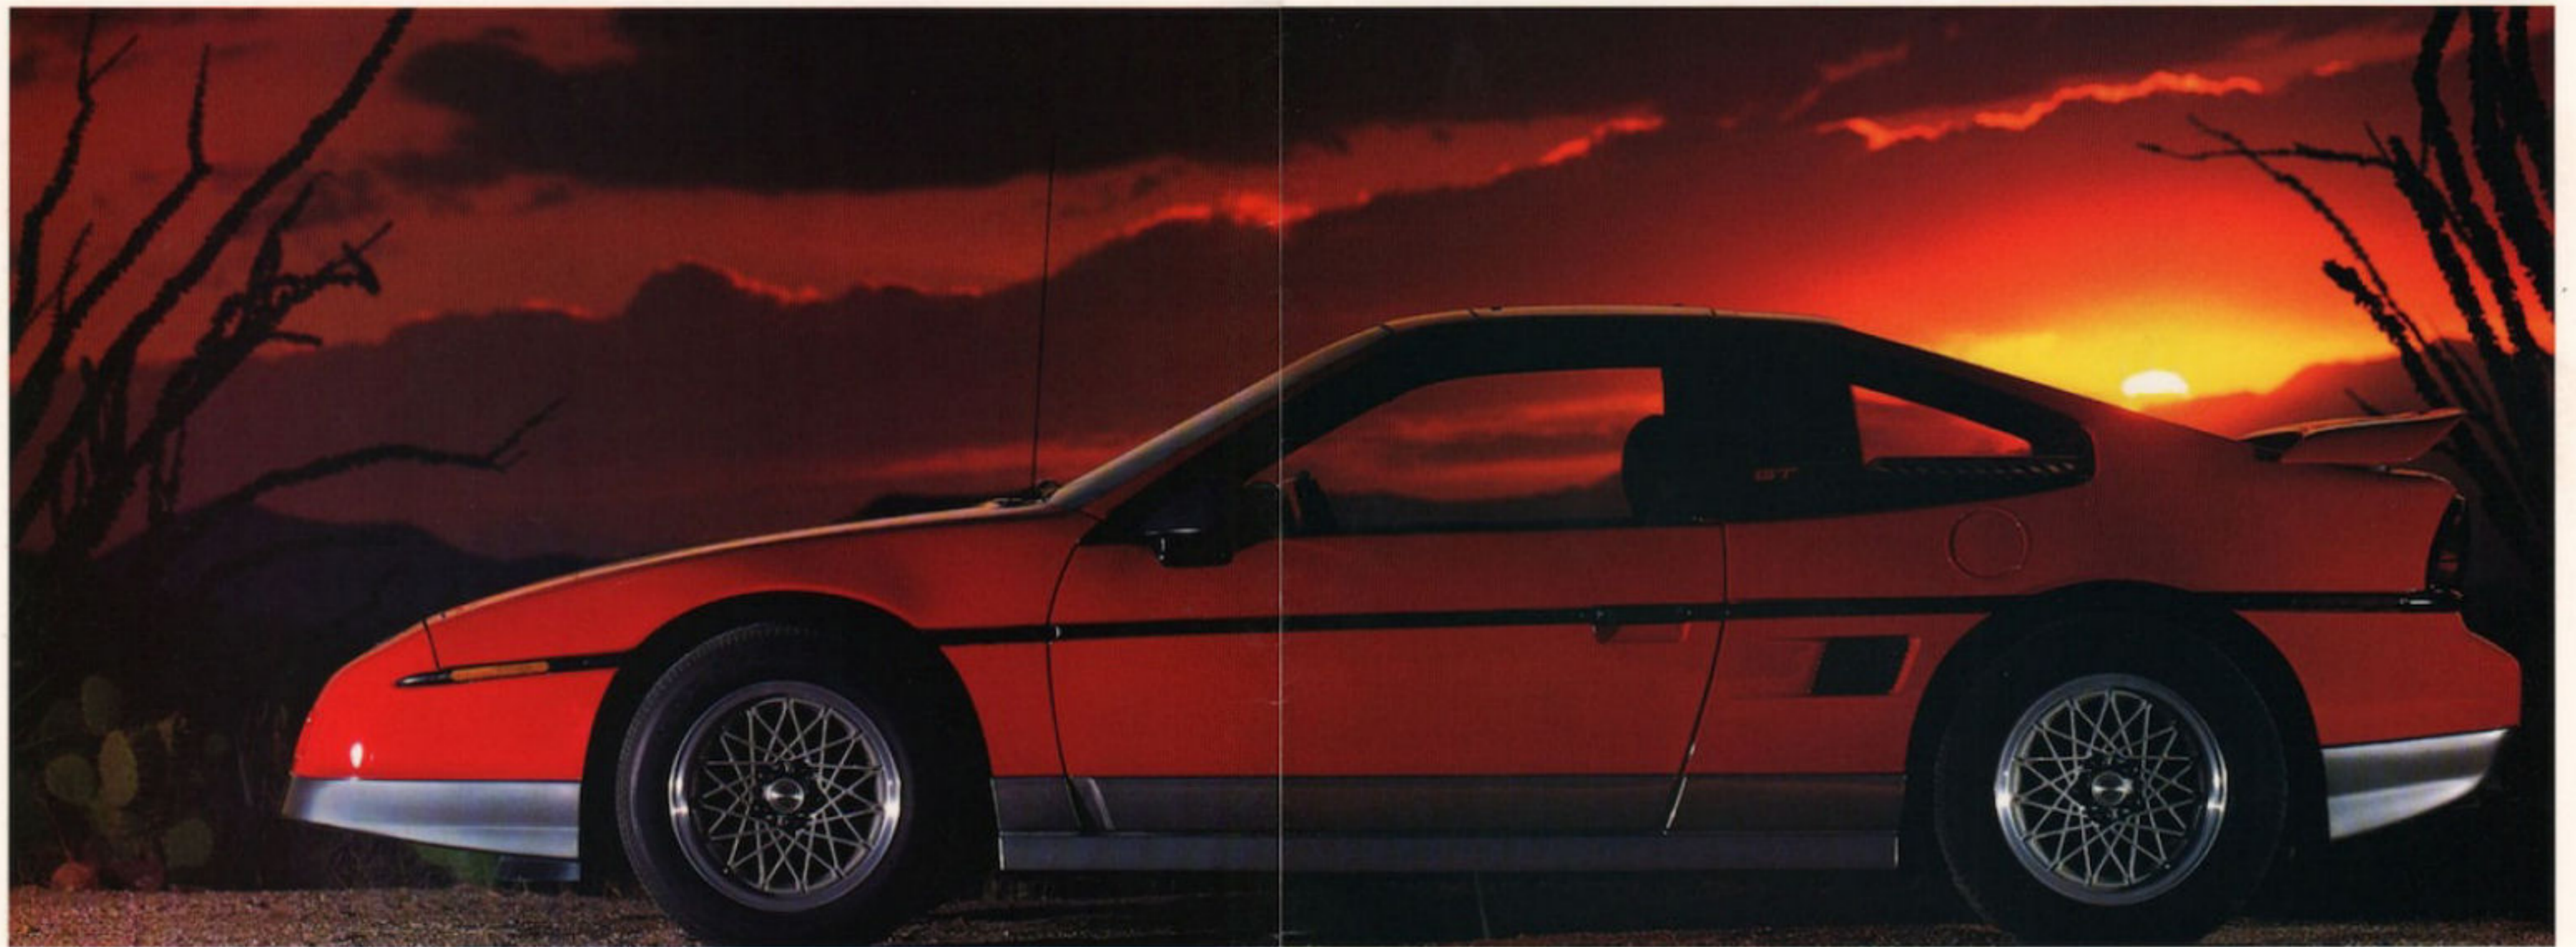

FIERO GT
6000 S/E

PONTIAC FIERO GT

A bolder shape than ever before. An attitude to match.

Our hottest hit made even hotter.

This is the new Fiero GT for 1986.

*The mid-engine Fiero GT has a lot to offer the serious driver:
Multi-port fuel-injected 2.8 liter V6 power. Rack and pinion steering. Fully independent
suspension. A true cockpit environment with complete
instrumentation. Its WS6 performance package features special shock absorbers,
23mm front stabilizer bar and revised rear suspension geometry,
plus 15" x 7" aluminum wheels and massive Goodyear Eagle GTs.*

PONTIAC 6000 S/E

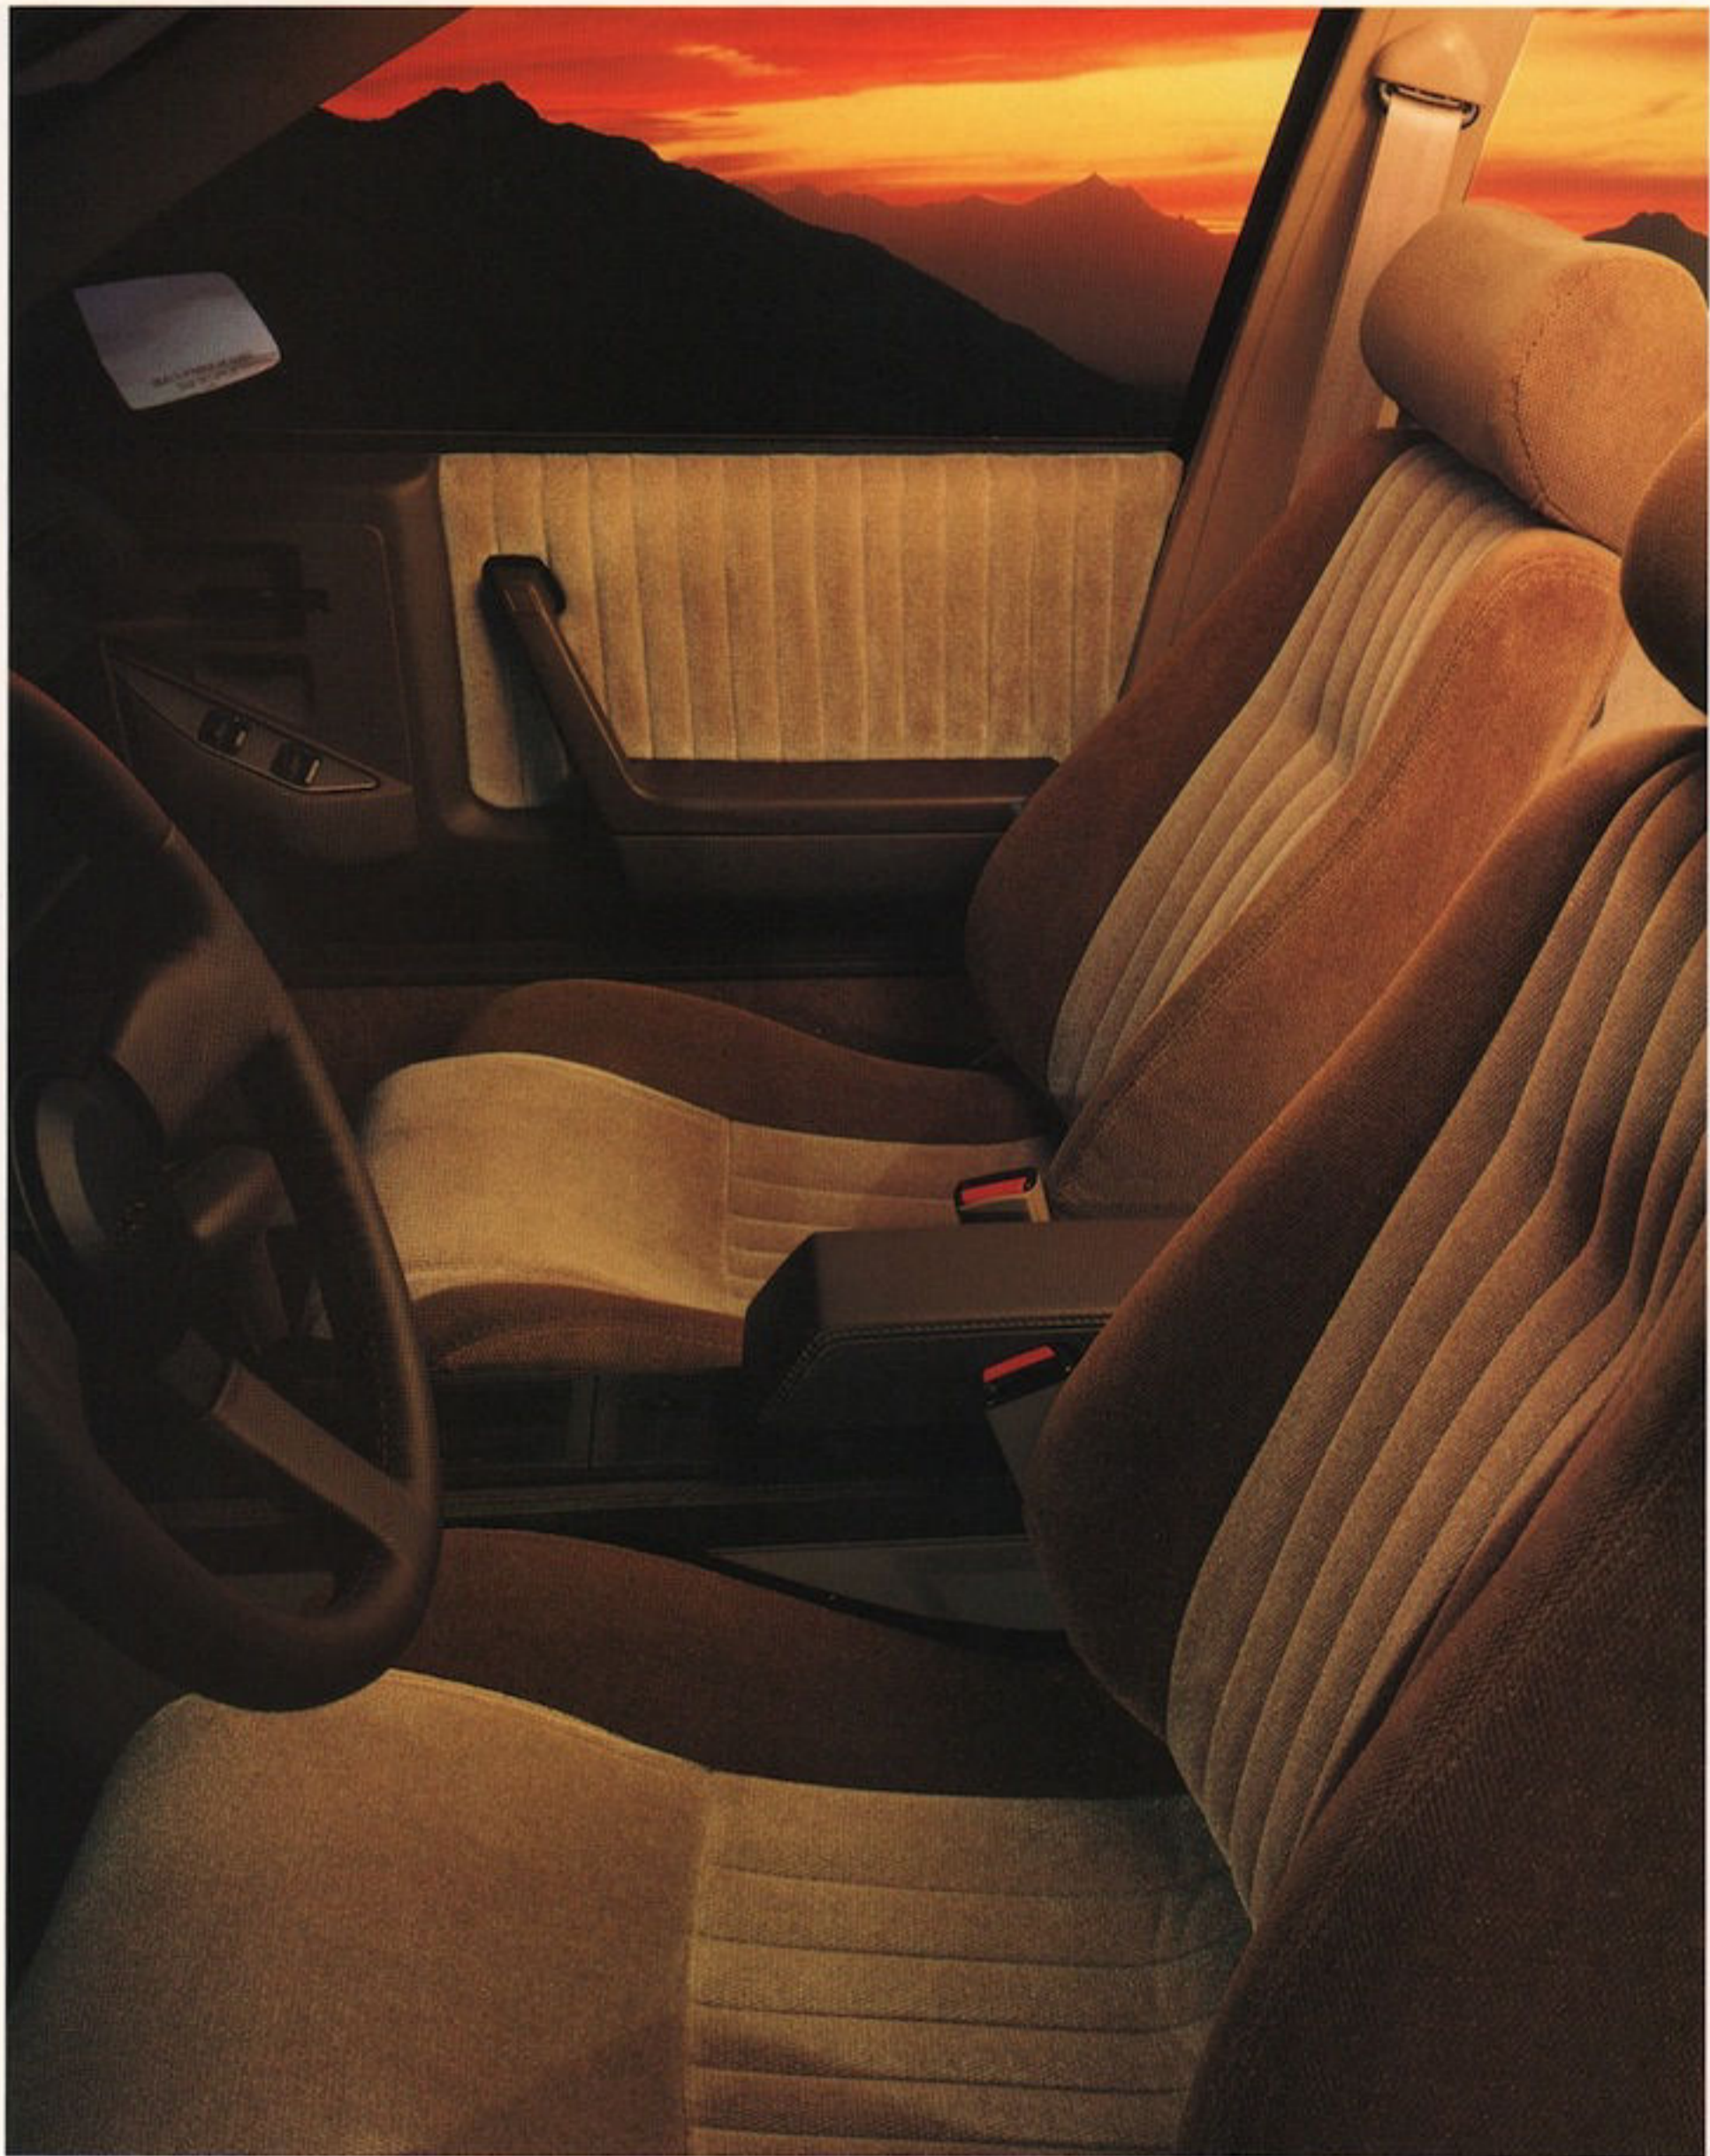

Our new Sport Edition of the Pontiac 6000 has been specially tuned and equipped to deliver inspired performance. From its blacked-out trim to its quick acceleration and crisp handling, this is one serious road machine.

The new Pontiac 6000 S/E was designed for performance from the ground up. Its cleanly sculptured body rides on big P195/70R14 Goodyear Eagle GT performance tires and Pontiac's famed Y99 rally tuned suspension. Power steering is standard, as is the kick of 2.8 liters of fuel-injected V6 power.

Inside, Pontiac 6000 S/E's driving environment features reclining front bucket seats, floor console and a full complement of analog gages.

PONTIAC 6000 S/E WAGON

Pontiac 6000 S/E Wagon is no ordinary people mover. Special blacked-out trim, color-accented body side moldings and aluminum road wheels make a compelling visual statement. Most importantly, this wagon hauls like a Pontiac, with the same V6 power and serious road gear as the sedan. And there's Electronic Ride Control for a steady, level ride under most load conditions (available on S/E Sedan).

SELECTED PONTIAC 6000 S/E FEATURES	
Vehicle type:	Front-engine, front-wheel-drive sedan and wagon (sedan figures given).
Dimensions and capacities:	Wheelbase: 104.9" Width: 72.0" Track, F/R: 58.7"/57.0" Height: 53.7" Length: 188.8" Curb weight: 2914-2980 lbs. Fuel tank: 15.7 gallons.
Engine:	2.8 liter V6 with multi-port fuel injection.
Transmissions:	3-speed automatic, 4-speed automatic available.
Suspension, F/R:	MacPherson strut/trailing arm and beam with stabilizer bar.
Steering:	Power rack and pinion.

Anti-Theft

- Audible ignition key removal reminder
- Anti-theft steering column lock
- Remote inside hood release
- Anti-theft key system (separate key for ignition)
- Visible vehicle I.D. number

A WORD ABOUT...

...This Catalog:

We have tried to make this catalog as comprehensive and factual as possible. Since the time of printing, however, some of the information may have been updated. Some of the equipment shown or described is available at extra cost. Your dealer has details and before ordering, you should ask him to bring you up to date. The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your Pontiac dealer for complete information.

...Assembly, Components and Optional Equipment in these Pontiac Products:

The Pontiacs described in this brochure are assembled at facilities operated by General Motors or GM of Canada. These vehicles incorporate thousands of different components produced by car groups and various component divisions of General Motors and by various suppliers worldwide to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Pontiac products with different components or differently sourced components than initially scheduled. All such components have been approved for use in Pontiac products and will provide the quality performance associated with the Pontiac name.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer.

Some options may be unavailable when your car is built.

Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your car includes the optional equipment you ordered or if there are changes, that they are acceptable to you.

...Safety Belt Insurance:

Every new 1986 Pontiac delivered by a Pontiac dealer in the United States comes with a one-year, \$10,000 safety belt insurance certificate from MIC General Insurance Corporation at no additional charge. \$10,000 will be paid to the estate of any occupant who suffers fatal injuries as a result of an accident involving that vehicle while wearing a GM safety belt. Buckle up every time you drive.

...Updated Service Information:

Pontiac regularly sends its dealers useful service bulletins about Pontiac products. Pontiac monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

...Engines:

Pontiacs are equipped with engines produced at facilities operated by GM car groups, subsidiaries, or affiliated companies worldwide.

...GMPP:

Of course, every new Pontiac comes with a comprehensive GM New Vehicle Limited Warranty. But if you want additional coverage, the GM Protection Plan option may be for you. See your Pontiac dealer for complete details. (Available in United States and Canada only.)

Your Pontiac dealer can make buying or leasing your new Pontiac easy. Just say GMAC.

Let's Get It Together  Buckle Up.

We Like Excitement in the USA.

WE BUILD EXCITEMENT
