

INTRODUCING

THE 1992 OLDSMOBILE

EIGHTY EIGHT ROYALE

THERE IS NOTHING MORE BEAUTIFUL THAN THE POWER OF INTELLIGENT ENGINEERING.

Quite often when a car is completely redesigned, advanced technology is added at the expense of everything the car has ever stood for. The 1992 Oldsmobile Eighty Eight Royale, however, represents a more intelligent alternative. Because when Oldsmobile engineers began designing the new Eighty Eight Royale, they incorporated two guiding thoughts. The first one was to retain the traditional values the Eighty Eight has always stood for—full-size room and comfort, and affordable value. Second, and equally important, was to incorporate the latest in meaningful technol-

ogy, thereby enhancing traditional qualities with more precise handling, greater road control and advanced safety engineering. The result is the completely new 1992 Oldsmobile Eighty Eight Royale. A car intelligently engineered to combine the best of traditional values with the best of advanced thinking. An aerodynamic car on the outside—a spacious, comfortable car on the inside. A responsive car to drive—a safe and secure car to own. It's traditional. And contemporary. It's the Power of Intelligent Engineering. And of course, it's what an Oldsmobile is all about.

EIGHTY EIGHT ROYALE LS

In addition to its sleek new look, the Eighty Eight has also been given a larger trunk with nearly 18 cubic feet of storage capacity.

IN ADDITION TO WHAT'S BEEN ADDED, YOU'LL APPRECIATE WHAT'S BEEN LEFT IN.

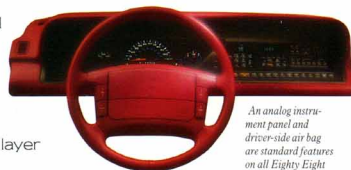

By themselves, the technological features added to the Eighty Eight Royale are impressive. Even more impressive is one feature that's been left in—full-size room and comfort. In fact, front-seat headroom has actually been increased. And not only has the trunk been made larger, it's been redesigned, as well, to provide easier access. Inside, you'll find six-passenger comfort addressed in an intelligently different way. Here, individually contoured front and rear seats pro-

vide improved support while rear-seat heating and air conditioning provides added comfort. Of course, a quiet ride also contributes to comfort.

Which leads to another new feature—constrained layer

dampening. A special barrier between the engine and dash, it reduces engine noise and is a good example of the intelligent engineering designed into every Eighty Eight Royale.

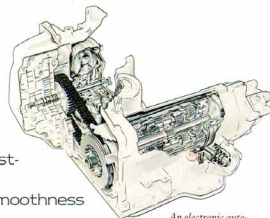

An analog instrument panel and driver-side air bag are standard features on all Eighty Eight models.

EIGHTY EIGHT ROYALE LS IN AVAILABLE LEATHER.

EVEN FROM A TECHNOLOGICAL VIEWPOINT, THIS CAR IS BEAUTIFULLY DESIGNED.

An electronic automatic transmission is standard on all models and represents one of many new technological features found on the Eighty Eight.

The concept of advanced traction engineering combines anti-lock brakes and available traction control, providing additional on-road security in the Royale LS. Meanwhile, a four-wheel independent suspension lets each wheel react individually to uneven roads, resulting in a smoother ride.

Some of the most striking features of the Eighty Eight Royale are quite technical. But their beauty can be easily appreciated. **¶** Start with

the engine. A 3800, tuned port V6 with an impressive

170 horsepower. More impressive is the effort-

less acceleration it delivers on highway entrance ramps or in passing situations. And besides power, this engine is also sur-

prisingly efficient, helping deliver an EPA estimated 18 mpg city, 28 mpg hwy.

Another example of intelligent engineering. **¶** Equally intel-

ligent is the Eighty Eight's transmission—one of the smoothest-

shifting transmissions on the road. The same attention to smoothness

also created a special engine balance shaft—and, in turn, one of the industry's

smoothest-running V6 engines. **¶** The Royale LS also features anti-lock brakes

and available traction control that make handling the road an

effortless process even in ugly weather. And that's a beautiful idea in itself.

EIGHTY EIGHT ROYALE LS

AS YOUR FAMILY GROWS, SO SHOULD YOUR EXPECTATIONS IN A CAR.

A remote keyless entry system is also available, allowing you to unlock a door and turn on interior lights from up to fifteen feet away.

The most important things about any car are the people inside it. That's why many of the most advanced fea-

tures in the Eighty Eight Royale are safety features. ¶ Several, in fact, were

designed to help prevent an accident from occurring in

the first place. These include the available anti-lock

braking and traction-control systems. In terms of

occupant protection, all models come with a driver-side air bag, rear-seat shoul-

A driver-side air bag provides an added measure of safety on every Eighty Eight Royale.

der belts, a driver-controlled power window lockout

switch and rear door child-security

locks. So while the Eighty Eight has always stood for comfort,

it's comfortably reassuring, as well. ¶ Even the ignition key comes with a com-

puter chip inside, part of the PASS-Key theft-deterrent system that helps pre-

vent the Eighty Eight from being started by other means. ¶ The Oldsmobile

Eighty Eight Royale. Designed with the right technology for today's family.

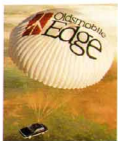

Standard on the Eighty Eight Royale, this cloth interior features a 55/45 divided bench seat and can easily accommodate up to six passengers.

EIGHTY EIGHT ROYALE

FOR TOTAL SATISFACTION, THE OLDSMOBILE EDGE.

Every Eighty Eight Royale comes with the Oldsmobile Edge, the most comprehensive owner satisfaction program in the industry. The Oldsmobile Edge provides these benefits:

|| **Guaranteed Satisfaction**—If not totally satisfied with your new Oldsmobile, you can return it to the selling dealer within 30 days or 1,500 miles and receive credit toward the purchase of another new Oldsmobile.

|| **Bumper-To-Bumper Plus Warranty**—Covers every part of your vehicle, except tires, for any defects in materials or workmanship for three years or 36,000 miles. Plus, there are no deductible charges for any warranty repairs.

|| **24-Hour Roadside Assistance**—Automatically provided free of charge anywhere in North America. Also includes trip routing assistance and trip interruption benefits of up to \$500 if your vehicle is disabled more than 150 miles from home. Like every Oldsmobile, the Oldsmobile Edge is the product of continual refinement. Look for additional benefits to be introduced soon.

See your dealer for terms of the limited warranty and details of the Oldsmobile Edge Roadside Assistance applies during the term of the warranty.

EIGHTY EIGHT ROYALE SPECIFICATIONS

STANDARD FEATURES

EIGHTY EIGHT ROYALE INCLUDES: • 3800 V6 engine with tuned port injection (3.8-liter, 170-horsepower/220 lbs.-ft. torque) • Electronic shift transmission with overdrive • 4-wheel independent suspension • Power front disc/rear drum brakes • Power rack-and-pinion steering • 15" wheels with deluxe wheel discs • All-season P205/70R15 radial VSW tires • Composite halogen headlights • Soft-Rear limited-slip differential • Center armrest with center console • Instrument panel cluster, including analog speedometer, temperature and fuel gauges, and trip odometer • Driver-side air bag • Air conditioner • AM/FM stereo with digital clock and rear door speakers • Tilt-WHEEL steering • Power windows with power-controlled lockout switch • Rear disc child-security locks • PASS-Key vehicle security system

EIGHTY EIGHT ROYALE LS ALSO INCLUDES: • Two-tone paint scheme (monotone available) • Anti-lock braking system • Cruise control • Power door locks • AM/FM stereo with auto-reverse cassette player, power antenna and 5-speaker Dimensional Sound system • Front-seat heaters • Front storage armrest • Power outside rear-view mirrors • Rear-seat air duct for heat, ventilation and air conditioning • Carpeted front and rear floor mats

OPTIONAL FEATURES

• Torsion suspension, including 16" aluminum wheels, blackwall touring tires, automatic load-leveling system, special steering gear, and leather-wrapped steering wheel • Traction-control system** • Towing package (3,000-pound capacity) including special shock absorbers, springs, stabilizer bars, automatic load-leveling system, higher capacity cooling system, transmission oil cooler and high-capacity battery • 15" aluminum wheels with blackwall tires • Simulated wire wheel discs • Rear-window defogger • Accent stripe • Leather seating areas with leather-wrapped steering wheel* • Electronic instrument cluster with driver information center, including fuel economy, time/date, elapsed time, average mph, distance to destination, estimated time of arrival and oil change and service reminders** • LSS Package—bucket seats, console, floor shifter, rallye gauge cluster, touring suspension, 15" aluminum wheels and load leveling** • Self-defrosting heated windshield** • Engine block heater • AM/FM stereo with auto-reverse cassette and 6 speakers** • AM stereo/FM stereo with auto-reverse cassette, graphic equalizer and 6 speakers*** • AM stereo/FM stereo with compact disc, auto-reverse cassette and 6 speakers* • AM stereo/FM stereo with compact disc, auto-reverse cassette, graphic equalizer and 6 speakers***

*Available only on Eighty Eight Royale LS. **Including passengers, equipment, trailer and cargo. ***Available only on Eighty Eight Royale. **Requires C-Quan™ AM stereo broadcast. Rear AM stations across the country broadcast in C-Quan, but some do not. Check with your local stations for compatibility in your area.

Important—Read About This Catalog: We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Since this information may have been updated since the time of printing, please check with your Oldsmobile dealer for complete details.

A Word About Engines: Oldsmobiles are equipped with engines produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide.

A Word About Assembly: Oldsmobiles are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Oldsmobiles incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Oldsmobiles with different or differently sourced components than originally scheduled. All such components have been approved for use in Oldsmobiles and will provide the quality performance associated with the Oldsmobile name. Since some options may be available when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered, if there are changes, that they are acceptable to you.

A Word About Updated Service Information: Oldsmobile regularly sends its dealers useful service bulletins about Oldsmobile products. Oldsmobile monitors product performance in the field. We then prepare bulletins for arriving our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

A Word About Warranty: The GM 3-year/36,000-mile Bumper-to-Bumper Plus Warranty covers repairs for any new Oldsmobile, including labor and parts, wherever comes first. Body sheet metal rust-through from corrosion is covered for 3 years or 100,000 miles, whichever comes first. See your Oldsmobile dealer for terms of this limited warranty.

A Word About Corrosion Protection: Oldsmobiles are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through from corrosion for 6 years/100,000 miles. In addition to additional rust-inhibiting materials is not required under the corrosion coverage.

Passenger Car Occupant Protection: Supplemental inflatable restraint, driver only, with manual lap/shoulder safety belts for the driver and right front passenger on Eighty Eight models including visual and audible warning systems. Manual lap/shoulder safety belts, outboard rear seat positions. Manual lap safety belts, center front/rear seat positions. Energy-absorbing steering column. Energy-absorbing instrument panel. Energy-absorbing front seat back top. Interlocking door latches. Side-guard door beams. Passenger-guard inside door lock handles. Safety air armrests. Driver and right front passenger plus outboard rear. Break-away inside rearview mirror. Security door lock and door retention components. Tempered side and rear windows.

Passenger Car Accident Avoidance: Side marker lamps and reflectors. Parking lamps that illuminate with headlights. Four-way hazard warning flashers. Back-up lamps. Center high-mounted stop lamp. Directional signal control with lane-change feature. Windshield deflector, washer and mid-speed wipers, inside rearview mirror. Outside left and right rearview mirrors. Brake system with dual master cylinder and warning light. Starter safety switch. Dual action hood latch. Low-glide front on inside windshield moldings, wiper arms and blades, metallic steering wheel faces, illuminated heater and defroster controls. Seats with built-in tread wear indicators. Safety road wheel rim. Anti-lock brakes (optional on Eighty Eight Royale, standard on LS). Audible brake lining wear indicators, disc brakes. Brake transmission shift interlock.
