

PONTIAC

2005 Pontiac Grand Prix

In taking the concept of the driver's car to the next level, the thought arose: Might one car excel at everything? As a Pontiac® Grand Prix®, it has to. The air, fuel and spark combusting within it ignites a feeling in you. It possesses abundant power at its disposal and the torque necessary to translate that intensity. Its steering is fluid in a parking lot, but totally precise at performance speeds. It offers a highly responsive automatic transmission that can be controlled like a manual. An impressive handling system as agile in traffic as when holding tight to a turn. Its interior versatility matches your own; while its exterior styling enhances your own. It's as safe to drive as it is exhilarating. And perhaps the biggest surprise of all, its spaciousness redefines the sport sedan category. So even standing still, you'll sense its capability to do it all. Driving, of course, confirms it. The Pontiac Grand Prix.

Grand Prix GTP shown in Galaxy Silver with optional equipment.
